

SFY 2017 - Tobacco Fund for FTF Areas for Strategies by Goal Area

Information included in this document is a summary of the strategies funded at the regional and statewide levels. It is organized by goal areas, which are: Quality and Access, Professional Development, Health, Family Support, Evaluation, Coordination and Community Awareness.

Family Support

\$ 32,670,096

First Things First will expand families' access to the information, services and supports they need to help their young children achieve their fullest potential. To make the best choices, families need access to information that educates them about what their child is learning and doing, how to optimally support early childhood development and child health and what resources or programs are available in their community. Families also need opportunities to connect with other families in their community. The continuum of high-quality services and support will be planned, developed, funded, and delivered in a family-centered, comprehensive, collaborative, culturally and linguistically responsive manner that best meets the needs and preferences of families, leverages available resources, and involves families in the program development and implementation. As a result of First Things First's efforts, families who need or want assistance have the support they need to use language and play throughout their daily routines and interactions, read with their children daily and increase their competence and confidence about their ability to support their child's safety, health and well-being.

Birth to Five Helpline

\$ 100,000

Strategy Intent and Description	Regional Partnership Council	Allotment
First Things First will fund the successful Applicant to be the Administrative Home to implement the Warmline, using one toll-free phone number available statewide to parents and families with children younger than five years of age, as well as center-based early care and education programs and family child care homes enrolled in Quality First and their Coaches.	State	\$ 100,000

Court Teams

\$ 778,270

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the evidence-informed Court Team strategy is to improve outcomes for infants and toddlers and their families involved in the child welfare system in order to reduce or prevent future court involvement. The expected result is that informed local communities can strengthen the support and care for infants, toddlers, and their families in the Juvenile Court system. This is accomplished through training, shared planning, systems improvement, and regular consultation of those agencies working with a child and family. Court Team implementation may include recommending and referring infants, toddlers, and families for services, but does not directly provide these services.	Colorado River Indian Tribes	\$ 20,500
	La Paz/Mohave	\$ 387,770
	Navajo/Apache	\$ 50,000
	Phoenix North	\$ 50,000
	Phoenix South	\$ 220,000
	Yavapai	\$ 50,000

Curriculum Development – Parent Education

\$ 11,000

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the evidence-based Parenting Education strategy is to offer learning activities designed to increase the knowledge and skills of families with children zero through five not enrolled in kindergarten, promoting positive parenting practices that result in enhanced child health and development when utilized. The expected results of effective parenting education programs are increased caregiver knowledge of child development and parenting skills, improved caregiver and child interactions, more effective parental monitoring and guidance, decreased rates of child maltreatment, and better physical, cognitive and emotional development in children (Samuelson, 2010).	San Carlos Apache	\$ 11,000

Family Resource Centers

\$ 6,725,348

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of Family Resource Centers, a promising practice strategy, is to serve as a community hub, connecting families with children zero through five not enrolled in kindergarten to the information, resources, and services they need to support their child's optimal health and	East Maricopa	\$ 1,300,000
	Northwest Maricopa	\$ 1,000,000
	Phoenix North	\$ 1,050,000

services they need to support their child's optimal health and development. Family Resource Centers offer a library of resources and information families can access on their own through print and digital formats. The expected results are increased access to concrete supports and services; improved parenting skills; successful connections to social supports for families; increased knowledge of child development; and support for their child's school readiness.

Phoenix South	\$	1,200,000
Salt River Pima-Maricopa Indian Community	\$	51,603
Santa Cruz	\$	510,600
Southeast Maricopa	\$	750,000
Southwest Maricopa	\$	863,145

Family Support Coordination

\$ 329,150

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the promising practice strategy, Family Support Coordination, is to provide a short-term, individualized family-level intervention that supports families with children zero through five not enrolled in kindergarten who are experiencing difficulty accessing and engaging with timely and efficient services to meet their needs. The expected result is increased utilization of available community support services by families with previously limited engagement or participation in other early childhood and health services.	Gila River Indian Community	\$ 104,150
	Tohono O'odham Nation	\$ 225,000

Home Visitation

\$ 18,562,478

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the evidence-based Home Visitation strategy is to provide personalized support for families with children zero through five not enrolled in kindergarten, particularly as part of a comprehensive and coordinated system. Expected results that are common to home visitation programs include: improved child health and development, increase in children's school readiness, enhancement of families' abilities to support their children's development, decreased incidence of child maltreatment, and improved family economic self-sufficiency and stability (US Department of Health and Human Services, 2014).	Cochise	\$ 390,000
	Coconino	\$ 325,000
	Cocopah Tribe	\$ 90,590
	East Maricopa	\$ 550,000
	Gila River Indian Community	\$ 150,000
	Graham/Greenlee	\$ 120,000
	Hualapai Tribe	\$ 89,350
	La Paz/Mohave	\$ 700,000
	Navajo Nation	\$ 1,275,000
	Northwest Maricopa	\$ 500,000
	Phoenix North	\$ 1,100,000
	Phoenix South	\$ 2,600,000

	Pima South	\$ 2,001,538
	Pinal	\$ 1,325,000
	Santa Cruz	\$ 176,000
	Southeast Maricopa	\$ 3,600,000
Southwest Maricopa	\$ 300,000	
Yavapai	\$ 270,000	
Yuma	\$ 850,000	

Native Language Preservation

\$ 125,000

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the promising practice strategy, Native Language Preservation, is to provide opportunities for Native American families and children zero through five not enrolled in kindergarten to understand their own culture, language, and connection to the tribal community. The expected results are an increase in the number of children and families in tribal communities who can speak their native language and an improvement in early language and emergent literacy outcomes for Native American children.	San Carlos Apache	\$ 125,000

Parent Kits

\$ 1,600,000

Strategy Intent and Description	Regional Partnership Council	Allotment
Provides families of every newborn leaving the hospital with the Arizona Parent Kit, which includes 6 DVDs about good parenting practices, a resource guide and a book to encourage early literacy. Gives parents of every newborn in Arizona critical information about healthy parenting practices and how to support their baby's early learning.	State	\$ 1,600,000

Parenting Education

\$ 2,722,000

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the evidence-based Parenting Education strategy is to offer learning activities designed to increase the knowledge and skills of families with children zero through five not enrolled in kindergarten, promoting positive parenting practices that result in enhanced child health and development when utilized. The expected results of effective parenting education programs are increased caregiver knowledge of child development and parenting skills, improved caregiver and child interactions, more effective parental monitoring and guidance, decreased rates of child maltreatment, and better physical, cognitive and emotional development in children (Samuelson, 2010).	Coconino	\$ 100,000
	East Maricopa	\$ 400,000
	Gila	\$ 240,000
	Northwest Maricopa	\$ 300,000
	Phoenix South	\$ 176,000
	Pima North	\$ 500,000
	Pima South	\$ 80,000
	Pinal	\$ 300,000
	Southwest Maricopa	\$ 375,000
	Yavapai	\$ 147,500
	Yuma	\$ 103,500

Parenting Outreach and Awareness

\$ 1,716,850

Strategy Intent and Description	Regional Partnership Council	Allotment
The intent of the promising practice strategy, Parenting Outreach and Awareness, is to increase awareness of families with children zero through five not enrolled in kindergarten of positive parenting practices, child development including health, nutrition, early learning and language acquisition, and knowledge of available services and supports to enhance their child's overall development.	Coconino	\$ 20,000
	Colorado River Indian Tribes	\$ 39,500
	East Maricopa	\$ 45,000
	Gila	\$ 60,000
	Graham/Greenlee	\$ 140,675
