## Parenting

There's no one right way to raise a child, and you don't have to be perfect. These programs are here to help you learn effective ways to support your child's healthy development and learning.

### Parenting Activities

Participate in family-friendly workshops, classes, story times and other events to have fun with your child, learn more about child development, positive parenting, health and literacy, and meet other parents.

## Child Health and Development

All children develop differently, but it helps to know if they're meeting typical milestones or could use extra assistance, and many medical and dental problems can be prevented.

### Developmental and Sensory Screening

Have your child checked for vision, hearing or developmental concerns (including communication, social-emotional, problem-solving and motor skills) and, if needed, get a referral for further evaluation or support.

### Dental/Oral Health

Prevent tooth decay by having a professional check your child's teeth (or yours, if you're pregnant), protect your child's teeth with fluoride, and get a referral to a dentist if you need one.

## Quality Child Care and Preschool

Quality early learning programs help young children learn, grow and thrive. More than 1,000 child care centers, homes and preschool programs in Arizona participate in Quality First to improve the quality of early learning for kids from birth to age 5. Many offer Quality First Scholarships to help low-income families afford quality early care and education.
